

• Losacero 30

In Serviacero Comercial we manufacture a steel roof sheet named Losacero, under the highest quality standards, offering a system with excellent structural resistance and reducing construction times for floors and ceilings. Its 3" corrugation height provides a higher load capacity.

Losacero (steel roof sheet)		
Material	Galvanized sheet 4 ft. wide.	Effective weight
Thicknesses	C-18 to C-24 (0.0478" to 0.0239")	91.5 cm
Steel grade	Structural steel GR 37	Fy: 37 ksi
Roll width	Minimum 48"	Maximum 48.1875"
Sheet length	Specified length	Tolerance
	From 2.00 to 12.20	-0 / + 6 mm
Package height	35 cm max. including pallets / poles	
Package weight	3,000 kg max. per 20 ft section	

Covering capacity Nominal 91.5 cm (36.0") Minimum 90.488 cm (35.625") Maximum 93.345 cm (36.75")
